THERMOMECHANICS OF CLAYS AND CLAY BARRIERS

Third International Workshop of Clay Barriers, ISMES, Bergamo, Italy, October 22–24, 1993

Tomasz Hueckel and Alberto Peano (Editors)

Thermomechanics of Clays and Clay Barriers, 3rd International Workshop on Clay Barriers, ISMES, Bergamo, Italy, October 22–24, 1993—Introduction
T. Hueckel, A. Peano 1
Thermal constraints on disposal of heat-emitting waste in agillaceous rocks
S.T. Horseman, T.J. McEwen 5
Critical issues in modelling the long-term hydro-thermo-mechanical performance of natural clay barriers
F. Gera, T. Hueckel, A. Peano 17
A review of the ANDRA's research programmes on the thermo-hydromechanical behaviour of clay in connection with the radioactive waste disposal project in deep geological formations
B. Félix, P. Lebon, R. Miguez, F. Plas 35
Overview of in-situ thermo-mechanical experiments in clay: Concept, results and interpretation
F. Bernier, B. Neerdael 51
Benchmarking the thermo-mechanical behaviour of clays—a progress report—the CEC interclay project
N.C. Knowles, R.M. Jeffries, B. Come 65
Physico/chemical stability of smectite clays
R. Pusch, O. Karnland 73
Thermo-mechanical properties of deep argillaceous formations
C. Del Olmo, V. Fioravante, F. Gera, T. Hueckel, J.C. Mayor, R. Pellegrini 87
Effects of temperature on strength and compressibility of sand-bentonite buffer
B.E. Lingnau, J. Graham, D. Yarechewski, N. Tanaka, M.N. Gray 103
The influence of temperature on mechanical characteristics of Boom clay: The results of an initial laboratory programme
D. De Bruyn, J.-F. Thimus 117
Modelling of the physical behaviour of clay barriers close to water saturation
L. Börgesson, O. Karnland, L.-E. Johannesson 127
A constitutive thermo-mechanical model for saturated clays
J.-C. Robinet, A. Rahbaoui, F. Plas, P. Lebon 145
A note on thermo-mechanical anisotropy of clays
T. Hueckel, R. Pellegrini 171
Time-dependent behaviour of deep clays
A. Giraud, G. Rousset 181
On the development of a model of the thermo–hydraulic–mechanical behaviour of unsaturated soils
H.R. Thomas, Y. He, M.R. Sansom, C.L.W. Li 197
Heat-induced moisture movement in a clay barrier II. Computational modelling and comparison with experimental results
A.P.S. Selvadurai 219
Heat-induced moisture movement in a clay barrier I. Experimental modelling of borehole emplacement
A.P.S. Selvadurai 239
Effects of heat/water flow interaction on compacted bentonite: Preliminary results
M.V. Villar, J. Cuevas, P.L. Martin 257
Evaluation of coupled heat and moisture flow parameters in a bentonite–sand buffer material
R.N. Yong, A.-M. O. Mohamed 269
Moisture movement under a temperature gradient in highly compacted bentonite
T. Kanno, K. Kato, J. Yamagata 287
Modelling hygro-thermo-mechanical behaviour of engineered clay barriers—Validation phase
C. Onofrei, M. Gray 301
